KUTSATZEA EZ DA ESKUBIDEA,
ingurune garbian bizitzea ordea BAI.

THERE IS NO RIGHT TO POLLUTE;
there is a right to live in a
clean environment.

Dear citizen:

I am writing to you to inform you that the waste department managed by the Tolosa Area Municipal Association, has had no record of your domestic waste in the last three months.

Perhaps there is something wrong with the card reader system for the bins that you have at home or maybe, due to your personal situation, you haven't used them recently. That is why we are asking you to inform the Town Council as soon as possible of the details that we show below about the organic waste bin (brown) and the residual waste bin (grey).

The details that we need for this are the following:

Name and surnames _____

Name of your home (if it has one) _____

Street _____

Number _____ Flat _____ Letter/Side _____

Grey bin number _____

Brown bin number _____

 I don't use the brown bin, because I recycle **community compost**.

I don't use the brown bin, because I recycle **compost at home**.

The available options for sending these details are:

Anoeta Town Council
Mailbox, any day of the
week.

Sending your details to
the following
WhatsApp number:
663 73 41 84

Sending your details by e-mail to:
ingurumena@anoeta.eus

It is important that you update your details: **in homes with bins without a reading the waste collection charge will be more expensive.** Correctly separating waste also reduces collection costs and improves the health and environment of all the people in Anoeta.

Thanks for taking part

**ANOETAKO
UDALA**
